User Interfaces (UI)

the means by which the user and a computer system interact, in particular the use of input devices and software

mouse, keyboard, game controller, touchscreen

Alternative User Interfaces (AUI)

nontraditional user interfaces that make use of inventive, often more natural ways of allowing humans to interact with devices
MIT Tangible Media

Ultrahaptics

Oculus Rift Oculus Touch

AUI: Makey Makey

a fun, easy-to-use circuit board that
allows you to invent your own wacky AUIs

Invention Kit for Everyone
